### Report on Site Visit at Lumbini Tower , Lashkaribagh, Nagpur

The students of VII Semester (B.E. Civil) an III sem Sem M.Tech Structural Engineering visited construction site of “**Lumbini Tower**”, **Lashkaribagh, Nagpur** on **17<sup>th</sup> Aug 2022** . Mr. Anil Ukey of Rajkala Developers , Nagpur extended the co-operation for the same. About 30 number of students and 2 faculty members Prof. H.P. Khungar and Dr. S.P. Siddh had accompanied the students. Site Engineer Mr. Amit Patankar explained the drawings and details of the site very clearly. He provided the Geotechnical Investigation details to the students.

This visit was organized by the department so that students get exposure to structural aspect of building specifically the foundation part. It was a G+16 storey building with double basement parking. The students got to learn about the Raft Foundation , Piles, retaining wall and ramp. It is an undergoing project wherein the student would be visiting again so that they can have more details of the upper slabs as well.
