

**2018-19: Phase I****Total number of students: 38**

<b>Sr.No</b>	<b>Industry Name</b>	<b>Project Title</b>
1	Zeal pavers and tiles	Design & Development of Low Cost Precast
2	Harmony AAC	Minimization of cracking in AAC block walls
3	Sanket Plants & Equipment	Boiler Automation System
4	Web Beta Pvt. Ltd	Electricity theft detection system
5	M/S. Automation Controls	Development of Earth leakage relay test kit using current injection system
6	B Algo Solar	Designing of Solar air cooler
7	J.V. Engineering Works	Designing advanced and effective control panel with feedback system in fixed form paver
8	Zoom Renewable Private Limited	Autonomous Solar Panel Cleaning Robots
9	Techwalnut Innovation LLP	IoT based smart lock system for courier services
10	Janki Electromech	Automatic bus bar bending machine
11	SSG Embedded Solutions	GOUBOT: An autonomous robot for cow dung collection
12	Energize Sustainable Solutions Pvt.Ltd.	Solar pump controller
13	ITNetworkz Pvt. Ltd.	Smart Pain relief system: using acupuncture therapy
14	Riva Labs Pvt. Ltd.	Indoor air quality monitoring system
15	Vishwashanti Udyog	Tool life prediction and improvement in machining parameters
16	Akar Industry	Design and development of electronic assistive device for BDC adjustment on Mechanical Press
17	Heat Treat Well	Integrated quenching medium handling & processing system
18	Hrishikesh Engineering Pvt.Ltd.	Plant layout improvement through systematic layout planning
19	Onkar Furnitech	Design of Flat plate solar thermal collector system for industrial process heating

**2018-19: Phase II**

**Period of Project: 6 months (December2018 - June 2019)**
