

Department of Electronics and Communication Engineering

The beginning of New Year witnessed the interaction of Third year EC students with eminent Alumni of the Department.

On 1st Jan 2018, Mr. Kunal Kedar (Alumni EC 2011 batch) discussed “Semiconductor Industry Trends and Product Design Flow” with third year students. Mr. Kunal Kedar has completed his B.E. from RCOEM, EC Dept in 2011 after which he pursued his M.Tech from BITS Pilani. He is currently working in Qualcomm, Banglore.

Mr Kunal Kedar delivering the lecture.

He encouraged students to pursue higher technical education and also discussed the impact of pursuing PG in his professional life. He briefed students about the recent trends in semiconductor industry and the thing to be done to increase probability of getting selected in core companies. He received a lot of appreciation from the students.
