VISION

To establish the department as a center of excellence in academics and research with advances in the rapidly changing field of Electronics and Communication.

MISSION

To create stimulating environment for learning and imparting quality technical education to fulfill the needs of industry and society.

ELECTRONICS AND COMMUNICATION

WELCOME

The department was set-up in 2001 and twice accredited by AICTE-NBA. Well-equipped laboratories with advanced equipment worth more than Rs. 1.5 crore along with advanced software have helped to achieve excellence in design and research.

The department has gained the distinction of producing merit holders with students appearing among the top ten University rankers.

COMMUNIQUE

A forum called 'communique' has been set up by the department which provides a platform to the students and staff to showcase their talent through various technical, curricular and cocurricular activities.

Careless Yesterday

One too many,
Its not funny,
The kill of desire,
Envoys the care!
What's not today,
May never be tomorrow,
Its will remain till yesterday,
But what you cared,
Will never live another day!
Live and let live,
Was meant for your sorrow,
As what you are will always be,
One that will change your tomorrow!

Prof. Deepak Khushalani

Juvenile's Farrago

Trembling steps to the school of guide. It was the first day of her ride. Lonely was she darker was her side. Fully perplexed with the scenario, with no flicker of bright.

Terribly deserted, with no clue what next to do.

She just made a wish, she had a friend. Executing her desire came in a benevolent godsend.

Now, a solace temper after having a new member

Together they spend time with no hinder. Soon from decisions of wrong and right ,till showing trust on each with time.

Both filled other's side with a radiant ignite. Solo girl nevermore sensed isolation , for her supplement thereafter fulfilled her equation. Avani Rao 2^{nd} year,EC

Invert your fear

Fear is the strongest element of spirituality,
Where belief needs to overpower faith,
Where compassion is the only element that brings purpose in life,
And judging poisons fear in mind!
Prof. Deepak Khushalani

PROCRASTINATION

Procrastination is the act of delaying or postponing a task or set of tasks. It could also be stated as habitual or intentional delay of starting or finishing a task despite knowing that it might have negative consequences.

The best example to understand procrastination is: We have to submit our journals on weekly basis to get grades. It is our duty to complete the journal on the same day of performance, but what we actually do? We procrastinate our journal writing, ignore it till the deadline i.e till our next performance date. Then day before the submission we hurriedly, carelessly by copying write it & submit it.

This is what exactly procrastination means. We ourselves are only deliberately creating

This is what exactly procrastination means. We ourselves are only deliberately creating the mess for writing our own journal.

Human beings are been procrastinating for centuries. If procrastination is our habit then it is a huge barrier in our personality. We can't call ourselves a gentleman. People having the habit of procrastinating their work do not realize the dangers of delaying .Work does not disappear if we postponed it. One day or other it has to be done. The more we postpone; the more work piles up. It is our faith in us, that we can do it tomorrow or later. But thing we all should remember that <u>'Tomorrow Never Comes'</u>. We only need to give more hours for the same work which in turn develops pressure, stress, agony and lot more.

It is said that, "Time and Tide wait for no man". Once time is wasted it won't come back, it is gone forever. Therefore, if you want to do anything or take any action, do it here & now. Do not linger over the idea. Do not lose the interest in it. Delay is damage. Do not think for the past and future actions. 'Think in the Present, Work in the Present & Live in the Present.'

We know the saying of Charles Dickens:

"PROCRASTINATION IS THE THIEF OF TIME." Future actions are unknown to us .Things change every moment .If you really wish to learn anything plan it immediately. Whatever comes to your mind bring it into practice and finish it off then & there only because the guilt, shame and anxiety that you feel while procrastinating is worse than the effort and energy you have to put in while you are working.

I would like to conclude by the words of Sir Norman Vincent Peale. He quotes: "The really happy are those who have broken the chains of procrastination, those who find satisfaction in doing the job at hand. They are full of eagerness, zest, productivity & creativity. You can be too."

So say good bye to the habit of procrastinating and develop new enthusiastic ,wise gentleman in you right now without any Procrastination.

~ SAMRUDDHI YAWALKAR. (ECE branch, 2nd year, 1st shift).

The Special Person

All those sleepless nights when I was thinking of you,

I was too lonely, and thought only of you! It was your voice that I was eager to hear, And you didn't realize how important you were!

The way you talked to everyone was unique!

I always stood there, watching you like a freak,

You were the one with whom I wanted to flee,

Cause why not! You were my Sugar Spree! I don't know why I couldn't speak to you, Not that I lacked courage, but it was the Respect for you!

Spending time with you was always a dream for me,

It was like adding Sugar to my tea!
I remember your dream to always fly high,

And that thing of yours, always made me smile!

I don't know if I could ever share these things with you,

But I hope to be your Co-pilot in your life flying with you!!
