

Shri Ramdeobaba College of Engineering and Management Nagpur

Department of Mechanical Engineering

Course-modules Developed

Sr. No.	Name of the Faculty	Course Module
1	Dr. Sandeep Joshi	Video lectures on the important topics of the course are uploaded on the You Tube and made available for the students. MET 352 – Heat Transfer Topics- Fourier’s Law and Applications Utility of General Heat Conduction equation Heat Transfer Analysis in extended surfaces Heat Exchangers MET 451-5 – Renewable Energy Systems Topics- 1. Wind Energy 2. Bio Energy Link - https://www.youtube.com/@sandeepshrijoshi
2	Prof. B. C. Bissa	MET 366-3 – Automobile Engineering - Video lectures on the important topics of the course are shared with the students using Google drive.
3	Prof. S. S. Deshmukh	MET 262 – Thermodynamics - Video lectures on the important topics of the course are uploaded on the You Tube and made available for the students. Link- https://www.youtube.com/@sachindeshmukh1026
4	Dr. P. S. Deole	MET 351 – Thermal Engineering-I - Video lectures on the important topics of the course are uploaded on the You Tube and made available for the students Topics- Boilers and Classification Chimney Draught Boiler Performance Link: https://www.youtube.com/@pranjaliscreations3840
5	Dr. A. K. Jha	MET 402 – Design of Machine Elements-II - Video lectures on the important topics of the course are shared with the students using Google drive.
